

TRAIN THE MODEL ON IBM

The screenshot displays the IBM Cloud Dashboard interface. At the top, the 'Dashboard' title is followed by links for 'Edit dashboard', 'Upgrade account', and a 'Create resource' button. A vertical sidebar on the left contains navigation icons. The main content area is divided into two sections. The top section, titled 'For you', features a horizontal row of eight service tiles: 'Build' (purple), 'Monitor your resources', 'IBM Watson Internet of Things Platform', 'View APIs and SDKs', 'Discover the Watson Internet of Things (IoT) Platform', 'Browse, select, and create a database', 'Use Watson Assistant', and 'Use Watson Studio'. Each tile includes a brief description and a 'Getting started' or 'Popular' button with a time estimate. The bottom section contains four larger tiles: 'News' (with a blue header and recent articles), 'Recent support cases' (with a 3D cube icon), 'Planned maintenance' (with a calendar icon), and 'IBM Cloud status' (with a world map icon and a 'No issues' status). At the very bottom, there are links for 'Usage', 'User access', and 'Manage users'.

For you Select an option ▾

Build
Explore IBM Cloud with this selection of easy starter tutorials and services.
Getting started 5 min

Monitor your resources
Get visibility into the performance and health of your resources.
Recommended 2 min

IBM Watson Internet of Things Platform
Communicate with connected devices, monitor and analyze data in real time, connect your own IoT apps and add Watson AI to the solution.
Getting started 5 min

View APIs and SDKs
View the API and SDK documentation for products and services in IBM Cloud.
Getting started 5 min

Discover the Watson Internet of Things (IoT) Platform
Use the built-in web console dashboards to monitor your IoT data and analyze it in real time.
Getting started 10 min

Browse, select, and create a database
Choose from our range of available databases to store critical data and documents for your system. Includes deployment time.
Getting started 10 min

Use Watson Assistant
Watson Assistant lets you build conversational interfaces into any application, device, or channel.
Popular 2 min

Use Watson Studio
Watson Studio provides a suite of tools and collaborative environment for data scientists, developers and experts.
